The farmers in the Mullet Lake section are rejoiced over the starting up of the extract works. They are anxious to have a market for hemlock bark.

A good rain would not be objectionable just now. Yesterday morning it looked as if a shower was sure, but "all signs for rain fall in dry weather."

The village council does not seem to pay much attention to the notices served upon them by Marshal Bentley to abate certain nuisances. Lock them up Tom.

The skating rink will be open Saturday evening.

The circulation of the TRIBUNE is increasing steadily. Advertisers should note the fact and place their advertisements where they will do them the most good.

James J. Brown, our former fellow townsman was a passenger on the City of Mackinac Monday morning, on his way to attend the Emmet county circuit court.

It is gratifying to see so many of our citizens taking pride in giving their homes a neat and tasty appearance by having them repainted. Keep up the good work.

Quite a crowd of Cheboyganites took in the excursion to Mackinac Island last Saturday and only that the morning was cloudy and threatened rain many more would have gone.

Mrs. Barr, mother of W. I. Barr, principal of the graded school, left on the Atlantic, Tuesday afternoon, for a visit with friends and relatives at Harrisburg, Pa. We wish her a pleasant visit.

The G. R. & I. R. R. we understand is trying to secure the Detroit, Lansing & Northern railroad, running from Detroit to Howard City. This would give the G. R. & I. folks a direct connection to Detroit.

The great majority of the maple trees, planted along the streets, are coming in leaf nicely this season, but few having died. In a few years they will add very much to the appearance of our village.

We hear it rumored that a stock company is about being formed in Cheboy to build a pulp manufactory. There is no better location in the state for such an establishment than right here at Cheboygan.

A man called on one of the saloons the other day and asked if the kept any soft drinks. They enumerated several temperance beverages they could supply, when the man very deliberately said, "Give me a drink of whisky."

Some are claiming that if the \$7,000 for the extension of the water mains are voted at the coming election, it will cause a heavy increase in taxes. Members of the village council inform us that such will not be the case.

One day the cablegrams says the question is settled, the next day it is in as unsettled a condition as ever. If they are going to fight over it, why don't they begin?

A petition was circulated this week among the proprietors of the dry goods, clothing and boot and shoe dealers in favor of closing their places of business every evening but Saturday at 8 o'clock. The Lansing Republican says computations in the office of Railroad Commissioner McPherson relative to the earnings of the various roads doing business in the state for the quarter ending March 31, 1885 show a total of \$13,697,375.41; against \$14,765,267.85 for the first quarter of 1884. This shows a decrease of \$1,067,892.44. The percentage for 1885 is 7.23.

A petition was being circulated Tuesday asking council to appoint a harbor master for this port. It was presented at the regular meeting Tuesday evening, but action was deferred until the next meeting. It is to be hoped that favorable action may be the result, as such an officer is badly needed to protect all interests and see that the business of the harbor is conducted in such a manner that all may enjoy such rights as they are entitled to without interference from other interests.

The Gaylord band is anxious to assist our citizens in celebrating the Fourth of July and offers to come up on exceedingly favorable terms. They remember how the weather interfered with the celebration last year and would like to see another effort made this year and see if the weather would not be more favorable.

Disastrous earthquakes occurred in Cashmere, a country in India, commencing last Sunday and continuing at intervals up to the latest advices Tuesday. The loss of life is reported very heavy and whole towns are said to have been demolished.

The small schooner May of Charlevoix arrived at Oshkosh this week on her way to New Orleans from the Lakes, via the Fox River and the Mississippi. Three years ago the scow schooner J. F. Prince went south by the same route.—Inland Marine. Cheboygan parties hold a mortgage on the schooner for a debt contracted, but this would look as if their claim had "woodbined."

The entertainment for the benefit of the M. E. Church passed off very pleasantly and satisfactorily last night. The attendance was not what the object deserved, nor what the concert merited. The old familiar war songs were rendered in a most excellent manner and a high compliment was paid Cheboygan's home talent by a stranger who was present.

Wednesday and Thursday evenings of next week "The State's Attorney Combination" will occupy the Opera House and present to our citizens two interesting entertainments, Wednesday evening "State's Attorney" will be presented, and on Thursday evening "Swap the Yankee" and "Felix O'Callahan." General admission 50 cents; Reserved seats, for sale at Cooper's, 75 cents. The press gives the company very complimentary notices and say it is an unusually good one.

The marine editor of the Chicago Inter Ocean wrote Capt. Bouchard last week, inquiring if a wrecking tug would be able to release the schooner C. G. Wells, which went ashore at the Bearers last fall and became a total wreck, not a vestige now remaining. Captain Bouchard wrote back that if a wrecking tug came after the Wells, it would be necessary to bring along a powerful microscope in addition to the other apparatus, as the schooner was invisible to the naked eye.—Northern Independent.

We are in receipt from Jordan, Marsh & Co., of Boston, Mass., of a copy of their spring and summer catalogue. It is a handsome pamphlet, elegantly illustrated, showing all the latest styles, but we have enlisted for the advancement of the interests of Cheboygan and we believe one of the fundamental principles in all communities should be to patronize home institutions, and hence we buy all our dry goods of Cheboygan merchants. The rule with every person should be to patronize home dealers. They pay taxes and contribute to the prosperity of our town, foreign establishments have no interest in the village.

Mr. and Mrs. J. P. Sutton received an invitation from Frank M. Linderman, their nephew, formerly of Cheboygan, now of Chicago to attend his marriage with Miss Josie Boyle, of Dayton, Ohio, June 3rd, yesterday. The wedding was to be a quiet one, only the immediate relatives being invited. Frank writes they expected to go to housekeeping in Chicago at once. Mr. Linderman was raised in Cheboygan and his many friends will join with the TRIBUNE in extending congratulations and wishing he and bride all the happiness their fondest hopes may have anticipated.

The council at its meeting Tuesday night passed a resolution to submit to the vote of the electors of the village at a special election to be held 15th inst, the question of raising \$7,000 for the extension of the waterworks mains.

This action was taken in response to the numerous signed petitions asking for the extension of the mains to that portion of the village located east of the river. In justice to the taxpayers owning property on the east side the project should receive the support of all. They have been taxed to support the works and so far have received no benefit from them. Let the measure have the hearty support of all and when the day comes vote yes every time.
